RETAIL SALES POLICY

Märklin, Inc. sells only through authorized Märklin dealers. Märklin, Inc. does not sell directly to individuals.

RETAIL PRICE LIST

Märklin's Retail Price List is divided into two categories. First, a complete numeric listing of both Cataloged Items-items which appear in the standard Märklin Catalog, and Non-Cataloged Items-items which do not appear in the standard Märklin Catalog. Secondly, the Non-Cataloged Items have been separated and further defined by special product lines, programs and discontinued items.

Due to Märklin's extensive product line of cataloged and non-cataloged items, not all authorized dealers will have a complete inventory of all of these items. However, dealers can special order any items you may wish to purchase. To locate the Authorized Märklin Dealer nearest you, please write to: Märklin, Inc., PO Box 51319, New Berlin, WI 53151 or call 1-800-825-0888.

WARRANTY

Märklin, Inc. warrants that its products are free from defects in materials and workmanship for a period of one year from the date of purchase. If there is any defect, return that item with proof of purchase to your authorized Märklin Dealer. Defects arising from abuse, improper maintenance or misuse are not covered in this warranty. This warranty applies ONLY to purchases made through Authorized Dealers in North America.

DIGITAL WARRANTY

All locomotive decoder panels (2-rail and 3-rail) are sold only to Authorized Digital dealers for installation. The 3-rail decoder panels will be covered under Märklin, Inc.'s limited warranty only if they are installed by an Authorized Digital Dealer, or by Märklin, Inc. The 2-rail decoder panel will be covered under Märklin, Inc.'s warranty only for its electronic functions. The 2-rail decoder panel will not be covered under warranty for its installation or for its compatibility with the locomotive in which it is being installed.

Märklin, Inc. maintains no responsibility for inadvertent errors in this price list. All prices are subject to change without notice.
All items are invoiced at prices in effect at the time of shipment.
