Locomotives

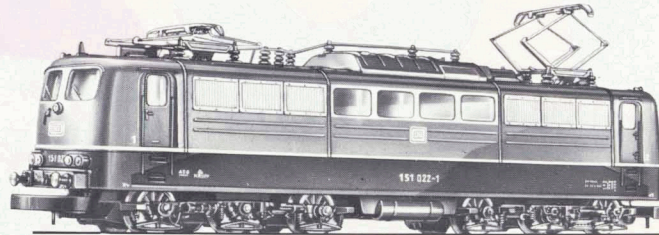

8827
Freight locomotive

with separate tender. A model of the German Federal Railways 2-8-2 locomotive. Series 41. 4 driven axles.

Reversing by remote control. Three working headlights. Mat black metal

body. Die-cast zinc frame. Automatic coupling on the tender.

4³/₈" (112 mm) long over buffers
Light bulb 8953

8857
Electric freight locomotive

A model of the German Federal Railways' 0-6-6-0 locomotive Series 151. Both bogies driven. Reversing by remote control. Three working head-

lights at each end, changing over when train reverses. Green plastic body. Windows inset in plastic frames. 2 spring-loaded pantographs on roof.

Switch for selecting operation from overheadline or track contacts. Die-cast zinc frame. Automatic coupling

at each end. 3¹/₂" (88 mm) long over buffers
Light bulb 8953

Train set

8902 Express train

(with power supply unit). Consisting of diesel locomotive 8875, express coach 8720, express coach 8721,

express dining car 8723, 1 straight track section 8500, 4 curved track sections 8520, 6 curved track

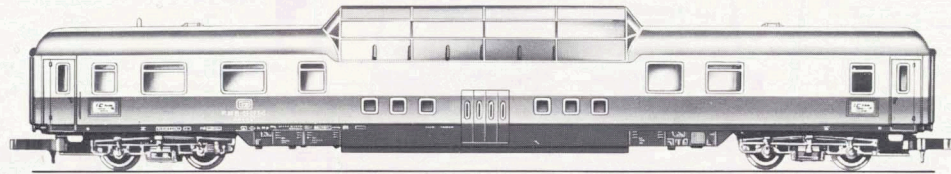

sections 8521, feeder track section 8590 and ramp 8974.
Length of train 17¹/₂" (445 mm)

Cars

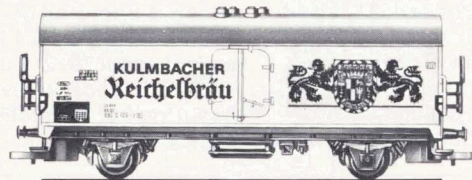

8728
TEE dome car

1st class. A model of the German Federal Railways' type ADm.

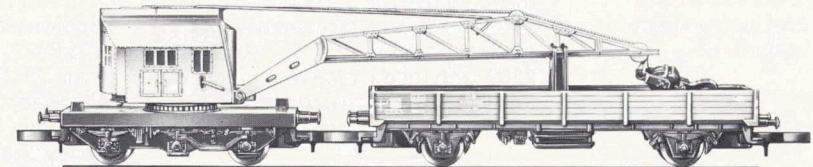

Windows inset in plastic frames. Observation dome of clear plastic.

Length 4³/₄" (120 mm)

8604 Beer car

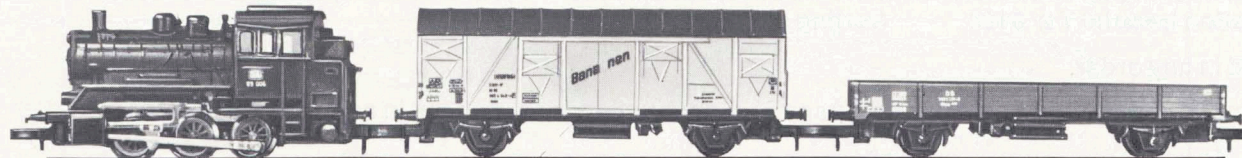

A model of a car belonging to the Kulmbach Reichelbräu Brewery. Length 2¹/₈" (54 mm)

8621 Crane car with rotating crane cab, movable boom and boom support. Crane

hook can be raised and lowered by hand crank. Underframe 1³/₈" (35 mm) long. (Gondola 8610 is not included in the price but is recommended for moving the crane car)

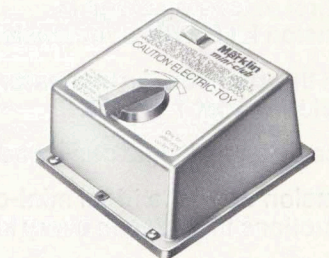

Train set

8907
Freight train with power supply unit 110 volt (USA)

With double end locomotive 8800, banana car 8606, gondola 8610,

1 straight track section 8500, 4 curved track sections 8521, feeder track section 8590 and power supply unit for

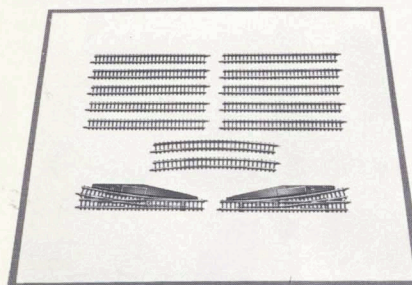

110 volt. Length of train 6¹/₄" (160 mm)

8190 Extension kit E

Contents: 10 straight track sections 8500, 1 pair of manually operated turnouts 8564, 2 curved track sections 8591 and instructions for extending the layout

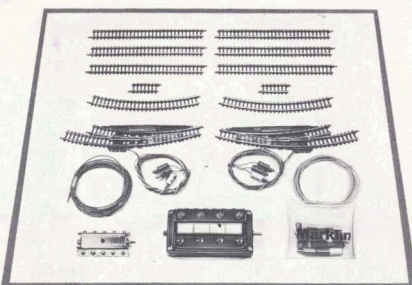

8191 Extension kit E

Contents: 10 straight track sections 8500, 1 pair of solenoid-operated turnouts 8561, 2 curved track sections 8591, 1 turnout/signal control panel 7072, 1 distributor plate 7209 with leads, sleeves, plugs, etc. for wiring up. Instructions for extending the layout

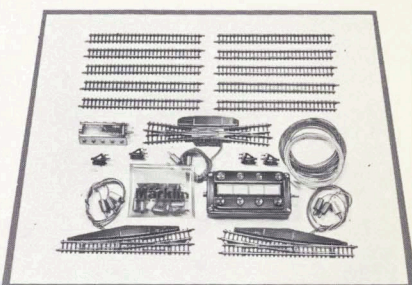

8192 Double track kit T 1

Contents: 6 straight track sections 8500, 2 curved track sections 8521, 4 curved track sections 8530, 1 pair of solenoid-operated curved turnouts 8567, 1 turnout/signal control panel 7072, 1 distributor plate 7209, with leads, sleeves, plugs, etc. for wiring up. Instructions for extending the layout

8193 Station track kit T 2

Contents: 6 straight track sections 8500, 2 straight track sections 8504, 2 curved track sections 8521, 1 pair of solenoid-operated curved turnouts 8567, 1 turnout/signal control panel 7072, 1 distributor plate 7209, with leads, sleeves, plugs, etc. for wiring up. Instructions for extending the layout

8194 Sorting sidings kit T 3

Contents: 10 straight track sections 8500, 1 double slip 8560, 1 pair of solenoid-operated turnouts 8561, 4 buffer stops 8991, 1 turnout/signal control panel 7072, 1 distributor plate 7209, with leads, sleeves, plugs, etc. for wiring up. Instructions for extending the layout

The first stage in this construction program is a Gift Set S, containing a **freight train with power supply unit S 8909/8907**, or an **express train without power supply unit S 8902**.

Each of these gift sets includes track components to make up a track oval.

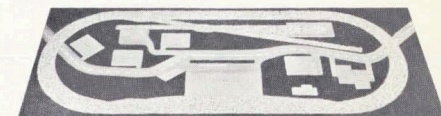

The first extension stage is **extension kit E 8190** or **extension kit E 8191**.

From this point on, further extension leading up to the ideal mini-club SET layout is by means of the following kits:
Double track kit T 1 8192 Station track kit T 2 8193 Sorting sidings kit T 3 8194

These three track kits can be added in any order.

Extension up to the ideal mini-club SET layout is very simple (see page 5). Construction is carried out in accordance with the instructions included in every kit.

The Toporama 8930 can be used as soon as you have extension kit E 8190 or E 8191. This Toporama is a highly recommended extra for the Märklin mini-club SET construction program.

8930 Märklin mini-club Toporama

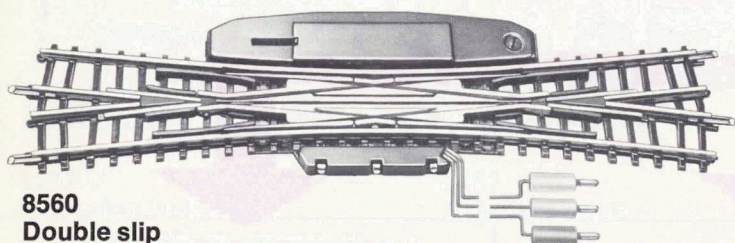

for the mini-club SET construction program leading to the ideal track layout. Realistic printed model railroad landscape. Multi-colored. With the track layout printed on. Can be used from stage E onwards (8190, 8191). The tufted grass-covered area produces an effect of relief. Size 19 1/2" x 47" (50 x 120 cm)

Track section

8560
Double slip

Crossing angle 13°. Radius 12³/₄" (323 mm). Remote control of the inside switches through double solenoids.

Supplementary manual switching lever. Length of the straight track section 4³/₈" (112.8 mm)

8947 Two pole reversing switch

(polarity reversing switch). Operating voltage 10 V. Double-solenoid operation. Switched by a switching track section, from a turn-out/signal control panel, or by manual switching lever. Width 1¹/₄" (30 mm). Length 2³/₄" (70 mm). Height 5¹/₁₆" (8 mm)

8957
Lamp standard

Height 1³/₄" (46 mm). Base 5¹/₁₆" x 9¹/₁₆" (8 x 14 mm). Mast removable from base
Light bulb 60 210

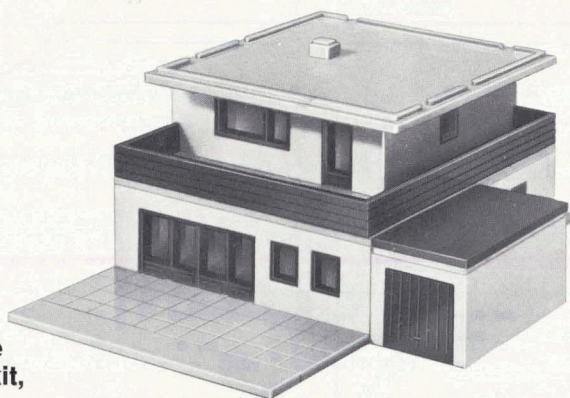

8958
Station lamp standard

Height 1³/₄" (46 mm). Base 5¹/₁₆" x 9¹/₁₆" (8 x 14 mm). Mast removable from base
Light bulb 60 210

8959
Sidewalk lamp standard

Height 1" (25 mm). Base 5¹/₁₆" x 9¹/₁₆" (8 x 14 mm). Mast removable from base
Light bulb 60 210

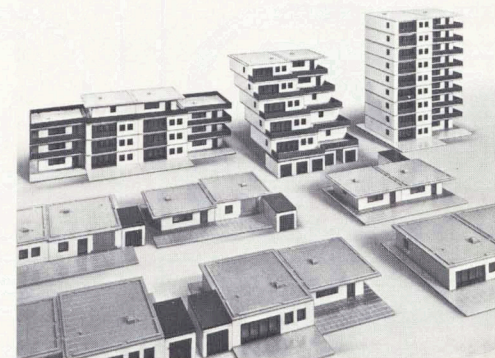

8968
Terrace house construction kit, with garage

White. Can be assembled in a variety of ways, with one or two storeys, or form part of a terrace. Base area 3¹/₈" x

1³/₄" (81 x 45 mm). Height 1¹/₈" (29 mm). Designed for the installation of lighting fitting 8950

8969
Terrace house construction kit

with garage. Similar to 8968, but with pale blue wall sections

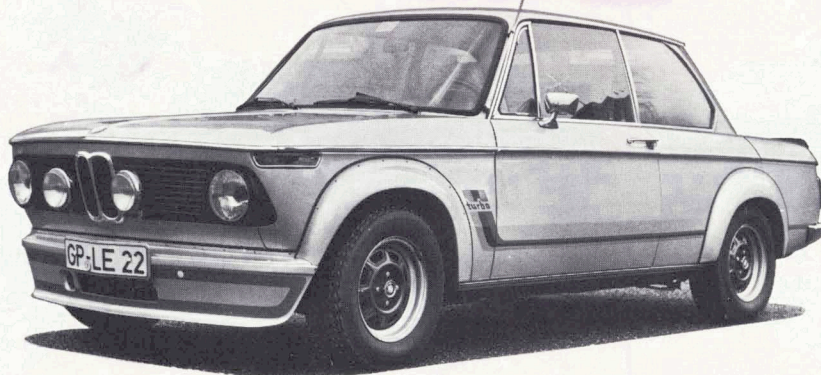

0299
Brochure "From Kiosk to Skyscraper"

Illustrated instructions explaining the variety of ways of using construction kits 8968 and 8969
