**NON-CATALOGED ITEMS**

The items featured in this portion of the price list are non-cataloged items. These items do not appear in the standard Märklin catalog and some are produced exclusively for the North American market. Many of these items are produced on a very limited basis and, in some cases, must be sold by allocation to dealers. This situation is not limited to the North American market and at times occurs on a worldwide basis.

**EXPORT PROGRAM**

Märklin's Special Export Models program consists of non-cataloged special models manufactured for certain countries outside of Germany. There is usually only one production run made and, based on demand, they can become limited in quantity. In some cases the items may be completely sold out at the factory and can no longer be ordered.

## "EXCLUSIV" ITEMS

The main feature of the Exclusiv program is a cooperation with Märklin to manufacture special "one-time" product runs, which are available only to Exclusiv subscription dealers and to Märklin subsidiary companies, including Märklin of North America. These items are packaged with a special logo titled "Exclusiv" and are not cataloged.
